

## **RSE (Relationships and Sex Education) POLICY**

### **RATIONALE**

Relationships and sex education is lifelong learning about physical, moral and emotional development. It is about the understanding of the importance of loving and caring relationships. It is about the teaching of sex, sexuality and sexual health.

Research demonstrates that good, comprehensive sex and relationship education does not make young people more likely to become sexually active at a younger age and actually has the opposite effect.

Sex and relationship education will reflect and interweave with the values of the PSHE and Citizenship programme (Jigsaw). RSE will be taught in the context of relationships.

In addition, RSE will promote self-esteem and emotional health and wellbeing. This will help pupils to form and maintain worthwhile and satisfying relationships based on respect for themselves and for others, at home, school, work and in the community. This will work alongside the Golden Valley School values of: Resilience, Empathy, Respect, Responsibility, Gratitude and Equity.

### **AIMS AND OBJECTIVES FOR RELATIONSHIPS AND SEX EDUCATION**

The aim of RSE is to provide children with age appropriate information, explore attitudes and values and develop skills in order to empower them to make positive decisions about their health related behaviour. This should take place with consideration of the qualities of relationships within families.

The objectives of Relationship and Sex Education are to:

- provide the knowledge and information to which all pupils are entitled
- clarify/reinforce existing knowledge
- develop an understanding and respect of differences
- raise pupils' self-esteem and confidence, especially in their relationships with others
- help pupils understand their sexual feelings and behaviour, so they can lead fulfilling and enjoyable lives
- help pupils' develop skills (language, decision making, choice, assertiveness) and make the most of their abilities
- provide the confidence to be participating members of society and to value themselves and others
- help gain access to information and support
- develop skills for a healthier safer lifestyle
- develop and use communication skills and assertiveness skills to cope with the influences of their peers and the media
- respect and care for their bodies
- be prepared for puberty and adulthood

### **The Teaching Programme for Relationship and Sex Education**

#### **Legal Requirements**

Relationships Education, Health Education and the National Curriculum Science are all mandatory in primary schools. Details of the teaching content of the statutory aspects are included in Appendix 1, 2 and 3. There are additional elements of the Sex Education programme which are non-mandatory and parents/carers have the right to withdraw their child from these specific lessons. In the first instance, parents/carers would be invited to discuss their request with the headteacher.

PSHE and RSE lessons are taught by the class teacher in a weekly lesson throughout the school.

Every child is entitled to receive RSE regardless of ethnicity, gender, religion, age, culture, disability, sexuality, language special needs, disadvantaged and looked after children.

It is our intention all children have the opportunity to experience a programme of RSE at a level which is appropriate for their age and physical development with differentiated provision if required.

We use the Jigsaw programme, which includes our teaching of RSE and PSHE through the following learning themes:

Being me in my world	Celebrating Difference	Dreams and Goals	Healthy Me	Relationships	Changing Me
----------------------	------------------------	------------------	------------	---------------	-------------

Each year group follows the outline given below. More detailed information is also found within the Jigsaw lesson plans.

### Early Years – Reception

Children learn about family life; making friends; falling out and making up; being a good friend; dealing with bullying; growing up -how have I changed from baby to now; bodies (NOT including names of sexual parts); respecting my body and looking after it e.g. personal hygiene

#### Year 1

Recognising bullying and how to deal with it; celebrating differences between people; making new friends; belonging to a family; being a good friend; physical contact preferences; people who help us; qualities as a friend and person; celebrating people who are special to me; life cycles – animal and human; changes in me; changes since being a baby; differences between female and male bodies (correct terminology: penis, vagina, testicles, vulva); respecting my body and understand which parts are private

#### Year 2

Assumptions and stereotypes about gender; understanding bullying; standing up for self and others; making new friends; gender diversity; celebrating difference and remaining friends; learning with others; group co-operation; different types of family; physical contact boundaries; friendship and conflict; secrets (including those that might worry us); trust and appreciation; expressing appreciation for special relationships; life cycles in nature; growing from young to old; increasing independence; differences in female and male bodies (correct terminology); assertiveness; appreciate that some parts of my body are private.

#### Year 3

Seeing things from others' perspectives; Families and their differences; family conflict and how to manage it (child-centred); witnessing bullying and how to solve it; homophobic bullying; recognising how words can be hurtful; giving and receiving compliments; respect for myself and others; healthy and safe choices; family roles and responsibilities; friendship and negotiation; keeping safe online and who to go to for help; being aware of how my choices affect others; awareness of how other children have different lives; expressing appreciation for family and friends; how babies grow; understanding a baby's needs; outside body changes at puberty; inside body changes at puberty; family stereotypes.

#### Year 4

Challenging assumptions; judging by appearance; accepting self and others; understanding influences; understanding bullying including the role of the bystander; problem-solving in relationships; identifying how special and unique everyone is; first impressions; working in a group; celebrating contributions of others; healthier friendships; group

dynamics; assertiveness; peer pressure; celebrating inner strength; jealousy; love and loss; memories of loved ones; getting on and falling out; girlfriends and boyfriends; showing appreciation to people and animals; being unique; having a baby (simple explanation of conception); girls and puberty; boys and puberty; confidence in change; accepting change.

### **Year 5**

Cultural differences and how they can cause conflict; racism; rumours and name-calling; types of bullying; enjoying and respecting other cultures; body image; self-recognition and self-worth; building self-esteem; safer online communities; rights and responsibilities online; online gaming and gambling; reducing screen time; dangers of online grooming; SMARRT internet safety rules; Self and body image; influence of online and media on body image; puberty for girls; puberty for boys; conception (including IVF); growing responsibility; coping with change.

### **Year 6**

Children's universal rights; feeling welcome and valued; choices, consequences and rewards; group dynamics; democracy, having a voice; anti-social behaviour; role-modelling; perceptions of normality; understanding disability; understanding what transgender means; power struggles; understanding bullying; inclusion/exclusion; difference as conflict; difference as celebration; empathy; exploitation, including 'county-lines' and gang culture; love and loss; managing feelings; power and control; assertiveness; technology safety; responsibility with technology use; self-image, body image; puberty and feelings; conception to birth; reflections about change; physical attraction; respect and consent; boyfriends/girlfriends; sexting.

### **Adaptive Learning and SEND**

All RSE lessons will be adapted where appropriate to meet the needs of all children including those with SEND in accordance with the Equality Act 2010. We are aware that these sessions can be challenging for looked after and/or adopted children and we will work closely with all parents to whom this may concern.

All parents will be contacted in writing prior to RSE lessons being taught, with a notice to contact the class teacher should they have any questions or concerns.

Relationships and Sex education (RSE) is usually delivered in mixed gender groups, however there may be occasions where single gender groups are more appropriate and relevant.

### **Safeguarding**

Teachers are aware that sometimes disclosures may be made during RSE lessons; and in which case, safeguarding procedures will be followed immediately. Sometimes it is clear that certain children may need time to talk one-to-one after the lesson closes. Time and appropriate staffing are allowed to enable this to happen. If disclosures occur, the procedures from the school's Safeguarding Policy are followed.

### **Answering Difficult Questions and Sensitive Issues**

Staff members are aware that views around RSE-related issues are varied. However, while personal views are respected, all RSE issues are taught without bias using the Jigsaw curriculum. Topics are presented using a variety of views and beliefs so that pupils are able to form their own, informed opinions while also respecting that others have the right to a different opinion.

Children are provided with opportunities to ask questions, and these may take a written form so that the answer/subject of conversation does not need to be with the whole class, if it is not deemed appropriate to do so. Written or verbal questions are answered according to the age and maturity of the pupil(s) concerned and may be addressed individually later. The school believes that individual teachers must use their skill and discretion in this area and refer to the Designated Safeguarding Lead (DSL) if they are concerned.

# Golden Valley Primary School

*'Learning for Lifelong Success'*

Our school believes that our RSE curriculum should meet the needs of all pupils, regardless of their developing sexuality. We are careful to deal honestly and sensitively with the subject of sexual orientation and gender diversity, and any indication of LGBT+ bullying is dealt with strongly in accordance with our Behaviour Policy and Anti-Bullying Guidelines. We are consistently careful to answer appropriate questions and offer support to all pupils. Our school liaises with parents/carers on this issue to reassure them of the content and context.

The content of our RSE curriculum has been reviewed by the subject leader for RSE in consultation with governors, parents and teaching staff.

Reviewed: January 2024

Next review date: January 2026 or sooner if required

**Appendix 1: Statutory Requirements of the Primary Relationships Education Curriculum:**

The focus of Relationships Education in a primary school should be on teaching the fundamental building blocks and characteristics of positive relationships, with particular reference to friendships, family relationships, and relationships with other children and with adults.

This starts with pupils being taught about what a relationship is, what friendship is, what family means and who the people are who can support them. From the beginning of primary school, building on early education, pupils should be taught how to take turns, how to treat each other with kindness, consideration and respect, the importance of honesty and truthfulness, permission seeking and giving, and the concept of personal privacy. Establishing personal space and boundaries, showing respect and understanding the differences between appropriate and inappropriate or unsafe physical, and other, contact – these are the forerunners of teaching about consent, which takes place at secondary.

Respect for others should be taught in an age-appropriate way, in terms of understanding one's own and others' boundaries in play, in negotiations about space, toys, books, resources and so on.

From the beginning, teachers should talk explicitly about the features of healthy friendships, family relationships and other relationships which young children are likely to encounter. Drawing attention to these in a range of contexts should enable pupils to form a strong early understanding of the features of relationships that are likely to lead to happiness and security. This will also help them to recognise any less positive relationships when they encounter them.

The principles of positive relationships also apply online especially as, by the end of primary school, many children will already be using the internet. When teaching relationships content, teachers should address online safety and appropriate behaviour in a way that is relevant to pupils' lives. Teachers should include content on how information and data is shared and used in all contexts, including online; for example, sharing pictures, understanding that many websites are businesses and how sites may use information provided by users in ways they might not expect.

Teaching about families requires sensitive and well-judged teaching based on knowledge of pupils and their circumstances. Families of many forms provide a nurturing environment for children. (Families can include for example, single parent families, LGBT parents, families headed by grandparents, adoptive parents, foster parents/carers amongst other structures.) Care needs to be taken to ensure that there is no stigmatisation of children based on their home circumstances and needs, to reflect sensitively that some children may have a different structure of support around them; e.g. looked after children or young carers.

A growing ability to form strong and positive relationships with others depends on the deliberate cultivation of character traits and positive personal attributes, (sometimes referred to as 'virtues') in the individual. In a school wide context which encourages the development and practice of resilience and other attributes, this includes character traits such as helping pupils to believe they can achieve, persevere with tasks, work towards long-term rewards and continue despite setbacks. Alongside understanding the importance of self-respect and self-worth, pupils should develop personal attributes including honesty, integrity, courage, humility, kindness, generosity, trustworthiness and a sense of justice. This can be achieved in a variety of ways including by providing planned opportunities for young people to undertake social action, active citizenship and voluntary service to others locally or more widely.

Relationships Education also creates an opportunity to enable pupils to be taught about positive emotional and mental wellbeing, including how friendships can support mental wellbeing.

Through Relationships Education (and RSE), schools should teach pupils the knowledge they need to recognise and to report abuse, including emotional, physical and sexual abuse. In primary schools, this can be delivered by focusing on boundaries and privacy, ensuring young people understand that they have rights over their own bodies.

This should also include understanding boundaries in friendships with peers and also in families and with others, in all contexts, including online. Pupils should know how to report concerns and seek advice when they suspect or know that something is wrong. At all stages it will be important to balance teaching children about making sensible decisions to stay safe (including online) whilst being clear it is never the fault of a child who is abused and why victim blaming is always wrong. These subjects complement Health Education and as part of a comprehensive programme and whole school approach, this knowledge can support safeguarding of children.

**By the end of primary school:**

<p><b>Families and people who care for me</b></p>	<p><b>Pupils should know:</b></p> <ul style="list-style-type: none"> <li>• that families are important for children growing up because they can give love, security and stability.</li> <li>• the characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives.</li> <li>• that others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care.</li> <li>• that stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up.</li> <li>• that marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong.</li> <li>• how to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed.</li> </ul>
<p><b>Caring friendships</b></p>	<p><b>Pupils should know:</b></p> <ul style="list-style-type: none"> <li>• how important friendships are in making us feel happy and secure, and how people choose and make friends.</li> <li>• the characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences and support with problems and difficulties.</li> <li>• that healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded.</li> <li>• that most friendships have ups and downs, and that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right.</li> <li>• how to recognise who to trust and who not to trust, how to judge when a friendship is making them feel unhappy or uncomfortable, managing conflict, how to manage these situations and how to seek help or advice from others, if needed.</li> </ul>
<p><b>Respectful relationships</b></p>	<p><b>Pupils should know:</b></p> <ul style="list-style-type: none"> <li>• the importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), or make different choices or have different preferences or beliefs.</li> <li>• practical steps they can take in a range of different contexts to improve or support respectful relationships.</li> <li>• the conventions of courtesy and manners.</li> <li>• the importance of self-respect and how this links to their own happiness.</li> <li>• that in school and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority.</li> <li>• about different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help.</li> <li>• what a stereotype is, and how stereotypes can be unfair, negative or destructive.</li> <li>• the importance of permission-seeking and giving in relationships with friends, peers and adults.</li> </ul>

<p><b>Online relationships</b></p>	<p><b>Pupils should know:</b></p> <ul style="list-style-type: none"> <li>• that people sometimes behave differently online, including by pretending to be someone they are not.</li> <li>• that the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online including when we are anonymous.</li> <li>• the rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them.</li> <li>• how to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met.</li> <li>• how information and data is shared and used online.</li> </ul>
<p><b>Being safe</b></p>	<p><b>Pupils should know:</b></p> <ul style="list-style-type: none"> <li>• what sorts of boundaries are appropriate in friendships with peers and others (including in a digital context).</li> <li>• about the concept of privacy and the implications of it for both children and adults; including that it is not always right to keep secrets if they relate to being safe.</li> <li>• that each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact.</li> <li>• how to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know.</li> <li>• how to recognise and report feelings of being unsafe or feeling bad about any adult.</li> <li>• how to ask for advice or help for themselves or others, and to keep trying until they are heard.</li> <li>• how to report concerns or abuse, and the vocabulary and confidence needed to do so.</li> <li>• where to get advice e.g. family, school and/or other sources.</li> </ul>

DfE: Relationships Education, Relationships and Sex Education (RSE) and Health Education 2019

## **Appendix 2: Statutory Requirements of the Primary Health Education Curriculum:**

### **Physical health and mental wellbeing**

The focus of Health Education in a primary school should be on teaching the characteristics of good physical health and mental wellbeing. Teachers should be clear that mental wellbeing is a normal part of daily life, in the same way as physical health.

This starts with pupils being taught about the benefits and importance of daily exercise, good nutrition and sufficient sleep, and giving pupils the language and knowledge to understand the normal range of emotions that everyone experiences. This should enable pupils to articulate how they are feeling, develop the language to talk about their bodies, health and emotions and judge whether what they are feeling and how they are behaving is appropriate and proportionate for the situations that they experience.

Teachers should go on to talk about the steps pupils can take to protect and support their own and others' health and wellbeing, including simple self-care techniques, personal hygiene, prevention of health and wellbeing problems and basic first aid.

Emphasis should be given to the positive two-way relationship between good physical health and good mental wellbeing, and the benefits to mental wellbeing of physical exercise and time spent outdoors.

Pupils should also be taught the benefits of hobbies, interests and participation in their own communities. This teaching should make clear that people are social beings and that spending time with others, taking opportunities to consider the needs of others and practising service to others, including in organised and structured activities and groups (for example the scouts or girl guide movements), are beneficial for health and wellbeing.

Pupils should be taught about the benefits of rationing time spent online and the risks of excessive use of electronic devices. In later primary school, pupils should be taught why social media, computer games and online gaming have age restrictions and should be equipped to manage common difficulties encountered online.

A firm foundation in the benefits and characteristics of good health and wellbeing will enable teachers to talk about isolation, loneliness, unhappiness, bullying and the negative impact of poor health and wellbeing.

**By the end of primary school:**

<p><b>Mental wellbeing</b></p>	<p><b>Pupils should know</b></p> <ul style="list-style-type: none"> <li>• that mental wellbeing is a normal part of daily life, in the same way as physical health.</li> <li>• that there is a normal range of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) and scale of emotions that all humans experience in relation to different experiences and situations.</li> <li>• how to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings.</li> <li>• how to judge whether what they are feeling and how they are behaving is appropriate and proportionate.</li> <li>• the benefits of physical exercise, time outdoors, community participation, voluntary and service-based activity on mental wellbeing and happiness.</li> <li>• simple self-care techniques, including the importance of rest, time spent with friends and family and the benefits of hobbies and interests.</li> <li>• isolation and loneliness can affect children and that it is very important for children to discuss their feelings with an adult and seek support.</li> <li>• that bullying (including cyberbullying) has a negative and often lasting impact on mental wellbeing.</li> <li>• where and how to seek support (including recognising the triggers for seeking support), including whom in school they should speak to if they are worried about their own or someone else's mental wellbeing or ability to control their emotions (including issues arising online).</li> <li>• it is common for people to experience mental ill health. For many people who do, the problems can be resolved if the right support is made available, especially if accessed early enough.</li> </ul>
<p><b>Internet safety and harms</b></p>	<p><b>Pupils should know</b></p> <ul style="list-style-type: none"> <li>• that for most people the internet is an integral part of life and has many benefits.</li> <li>• about the benefits of rationing time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical wellbeing.</li> <li>• how to consider the effect of their online actions on others and know how to recognise and display respectful behaviour online and the importance of keeping personal information private.</li> <li>• why social media, some computer games and online gaming, for example, are age restricted.</li> <li>• that the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health.</li> <li>• how to be a discerning consumer of information online including understanding that information, including that from search engines, is ranked, selected and targeted.</li> <li>• where and how to report concerns and get support with issues online.</li> </ul>
<p><b>Physical health and fitness</b></p>	<p><b>Pupils should know:</b></p> <ul style="list-style-type: none"> <li>• the characteristics and mental and physical benefits of an active lifestyle.</li> <li>• the importance of building regular exercise into daily and weekly routines and how to achieve this; for example walking or cycling to school, a daily active mile or other forms of regular, vigorous exercise.</li> <li>• the risks associated with an inactive lifestyle (including obesity).</li> <li>• how and when to seek support including which adults to speak to in school if they are worried about their health.</li> </ul>
<p><b>Healthy eating</b></p>	<p><b>Pupils should know:</b></p> <ul style="list-style-type: none"> <li>• what constitutes a healthy diet (including understanding calories and other nutritional content).</li> </ul>

	<ul style="list-style-type: none"> <li>• the principles of planning and preparing a range of healthy meals.</li> <li>• the characteristics of a poor diet and risks associated with unhealthy eating (including, for example, obesity and tooth decay) and other behaviours (e.g. the impact of alcohol on diet or health).</li> </ul>
<b>Drugs, alcohol and tobacco</b>	<p><b>Pupils should know:</b></p> <ul style="list-style-type: none"> <li>• the facts about legal and illegal harmful substances and associated risks, including smoking, alcohol use and drug-taking.</li> </ul>
<b>Health and prevention</b>	<p><b>Pupils should know:</b></p> <ul style="list-style-type: none"> <li>• how to recognise early signs of physical illness, such as weight loss, or unexplained changes to the body.</li> <li>• about safe and unsafe exposure to the sun, and how to reduce the risk of sun damage, including skin cancer.</li> <li>• the importance of sufficient good quality sleep for good health and that a lack of sleep can affect weight, mood and ability to learn.</li> <li>• about dental health and the benefits of good oral hygiene and dental flossing, including regular check-ups at the dentist.</li> <li>• about personal hygiene and germs including bacteria, viruses, how they are spread and treated, and the importance of handwashing.</li> <li>• the facts and science relating to allergies, immunisation and vaccination.</li> </ul>
<b>Basic first aid</b>	<p><b>Pupils should know:</b></p> <ul style="list-style-type: none"> <li>• how to make a clear and efficient call to emergency services if necessary.</li> <li>• concepts of basic first-aid, for example dealing with common injuries, including head injuries.</li> </ul>
<b>Changing adolescent body</b>	<p><b>Pupils should know:</b></p> <ul style="list-style-type: none"> <li>• key facts about puberty and the changing adolescent body, particularly from age 9 through to age 11, including physical and emotional changes.</li> <li>• about menstrual wellbeing including the key facts about the menstrual cycle.</li> </ul>
